

TRADER NEWS

Dear CVS client

We do realize times are tough, but urge you not to skimp on the maintenance of your fleet as that can quickly become a very expensive decision. We have thought of ways to assist you, our loyal clients, to keep your maintenance up to date, but at the same time cut on the expense and have come up with what I think is a very good idea. We will be offering a different special every month as well as a

‘tip of the month’ from the workshop to assist.

Look out for our
